John Nichols - Senior Pastor, Athena Baptist Church

"I attended the 40 hour Genesis Process Training in January of this year and discovered this program to have the best perspective and blend of Biblical, neurochemistry, and psychological understanding of addictions. This material will change your life! We will begin a weekly Genesis Process Change Program the week following this seminar for anyone interested in further healing. I am excited to be hosting such a powerful seminar that can make a difference in people's lives! Don't miss this event!"

Ted Roberts - Senior Pastor, East Hill Foursquare Church, Gresham, Oregon; Author of *The Pure Desire Process for Sexual Healing*

"The Genesis Process is a gift from God. It's relevant, Biblically-balanced, effective and profoundly practical. It is able to help folks who may have lost hope not only find it again through real change and healing, but also for them to experience the Grace of God. Michael Dye has caught the heart of God in a marvelous way."

Jeff Nichols - Senior Pastor, Vineyard Christian Fellowship of Marin

"I've been a pastor for over 18 years and the main issue I have struggled with is how do I help people make deep and lasting changes and become conformed to the image of Christ? Having discovered the Genesis Process I now feel like I have the answer. One woman in our fellowship said that, though she has attended all types of recovery programs, nothing went as deep and was as helpful as Genesis. Another person became reunited with our fellowship after finally finding the help to break the power of her reoccurring anger. People from all walks of life are coming and finding freedom to finally be the person God has called them to be through the Genesis Process Change Groups. Having finished book 1, we have people eager to work through book 2. I've never seen such enthusiasm and willingness from our people to be real and work on deep and life-changing issues. It has given us all renewed hope! Genesis provides practical and solid, theologically-based material that helps us get at the root of why we do the very things we don't want to do. It helps us discover that, by making the church a safe place for hurting people, they can become the people that God intended them to be. I wholeheartedly recommend it!"
